Managing Director

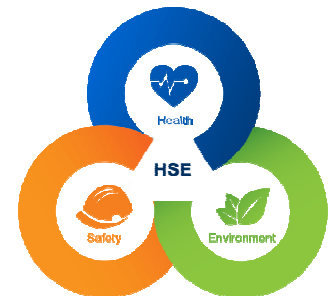

Our Vision

To be one of the most reliable and preferred contractors in the Middle East by delivering successful projects in a safe, timely and quality oriented manner; thus, emerging as a preferred Electrical, Instrumentation, Telecom and building maintenance services provider for our clients.

Our Mission

Our mission is continued success by delivering high-quality, cost effective and innovative services to meet us client’s needs. We are committed to client’s satisfaction and the teamwork of us dedicated employees are focused on excellence through performance.

Health, Safety & Environment Policy

Protecting our employees and customers as well as the public and the environment where we provide our services is our core value. Achieving HSE (Health, Safety, and Environment) performance goals are placed on an equal level with other critical business objectives and integrated into our daily operations so that each job can be completed safely and in a way that is protective of the environment. We continually seek to improve our Health, Safety and Environment policy to ensure that it remains aligned with the best practices in the industry.

Oxmore General Contracting LLC provides a complete range of Electrical, Instrumentation, Telecom and building maintenance services through highly experienced professional team fully complying to time, cost, Safety and quality requirements of Oil and Gas, Power, telecom & Building construction projects.

All aspects of Electrical, Instrumentation, Telecom and building maintenance work are covered; from estimation, technical support, preparation of drawings, subcontracting, purchasing and construction. Additionally, there is a full staff of highly qualified site personnel, including Engineer, Supervisor, foreman and tradesmen, including electricians, Instrument technicians, fitters and all necessary workforces.

We take pride of delivering the best quality contracting and services. We work with the highest degree of professionalism, field supervision, safety and quality control. From pre-construction to project close-out.

Our competent team has a clear ability to grasp the complexities of the challenges with each project. We organize and bring forward a realistic plan to full implementation and execution so as to deliver the project on time, within the budget and with superior Quality that will surely ascertain the success of the project.

Additionally, our construction supervision progresses on the process of observation, analysis, safety quality control and communication to ensure that the progress of the project is as per the contraction contract requirement.

Our ultimate objective is to achieve a full management of our client's project and to deliver beyond the desired results of our client.

ELECTRICAL AND INSTRUMENTAL SERVICES

Oxmore General Contracting LLC are an established world class service provider of Electrical and Instrumentation services. We understand our customers' expectations and the commitment required to complete technically challenging projects.

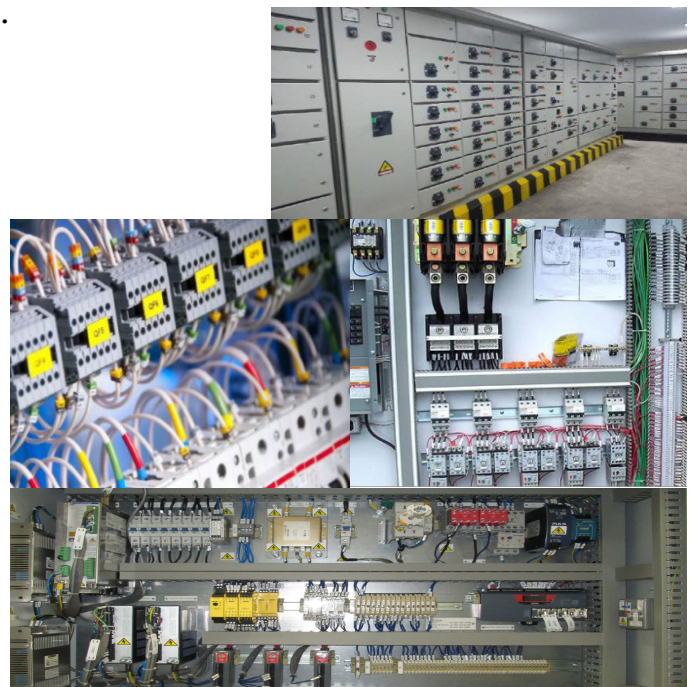

We provide an innovative specialized electrical and instrumentation service that incorporates highly skilled solutions for all aspects of the projects, from construction verification, quality assurance, completions (handover and turnover) pre-commissioning, commissioning and energization to operations and maintenance. Our project and construction expertise are based on involvement across a wide variety of sectors and industries, including Oil & Gas, Power, Heavy Fabrication, Infrastructure and Telecom. Offering our services as an integrated solution enables complex projects to be completed and managed by a single service provider, leading to a smooth, seamless solution for all your Electrical and Instrumentation NEEDS.

ELECTRICAL SERVICES

Oxmore General Contracting LLC deliver specialized electrical services within the oil and gas, power, infrastructure, telecom and industrial sectors. These services include all facets of construction, testing and commissioning, project management and maintenance services. We provide these services as an integrated solution, allowing complex construction, commissioning, maintenance or repair projects to be managed and completed by one service provider, allowing the simplest solution for the end customer, or plant owner.

Our capabilities include:

- ❖ Cabling installation and termination
- ❖ LV, MV & HV switchgear & distribution
- ❖ Lighting & emergency lighting systems
- ❖ Lightning protection
- ❖ Earthing systems & grids
- ❖ Generators
- ❖ UPS systems
- ❖ MV/HV underground cable installation and termination

- ❖ Protection and control panel Installation and commissioning
- ❖ On-Site Staffing (Long Term, Short Term, Part-time)

- ❖ Testing (Factory Acceptance Testing -FAT/
Site Acceptance Testing-SAT)
- ❖ Operations & maintenance
- ❖ On-Site Staffing (Long Term, Short Term, Part-time)
- ❖ Project/Outage Staffing (Engineers, Technicians, Helpers)

STRUCTURED NETWORK CABLING

We offer both computer and cable services, giving your project a "single source" vendor. This turn-key service ensures that your networking project will be closely engineered, and save you time and money. Category 5e or 6 cables or perhaps Gigabit or Fiber Optics cables **Oxmore** will guide you in the right direction. **Oxmore** only uses the highest quality cabling, connectors and components from leading manufacturers to ensure that our workmanship and your network are not compromised. Structured cabling is simply defined as 'the entire wiring system used to transmit data, voice information' and this is **Oxmore's** specialist area-our full service. With this approach you'll have complete confidence in every aspect of your network infrastructure remains an asset well into the future. And with few satisfied customers we can confidently backup our claims. **Oxmore** builds the future right into today's networks. Never satisfied with meeting only current standard, we design and build systems for what really matters; top performance for today and for tomorrow. By delivering on all four areas of network performance -products, design, installation, and connectivity. Products and design plans can deliver top performance only if they are expertly installed. Even the finest components and the sleekest design will come to nothing without proper installation. **Oxmore** ensures high installation standards through a highly qualified, efficient and experienced staffs. With this takes your network to the next dimension.

INFRASTRUCTURE ASSESSMENT

Small office networks typically evolve "organically". Necessarily, network growth is driven by the pressures of business. Our infrastructure assessment service is a workshop that reviews the requirements of the business's IT infrastructure. Impacts of business objectives on the office information systems are considered. What are the core business applications, Are they doing the job and can the infrastructure support it, We will audit existing hardware and software versions checking compatibilities, network configurations and network bottlenecks. At the end of the review we will deliver a document summarizing the existing configuration including a register of hardware and software, server's setups and Local Area Network (LAN) and Wide Area Network (WAN) settings. Additionally, a recommendation of issue management will be made along with suggested administration procedures.

CCTV SYSTEMS

We provide **CCTV** Installation, Access Control and Door Entry Installation services to the Residential, Corporate, Educational, Leisure and Retail Sector.

We will design the optimum positioning of the **CCTV** cameras, enable Remote Monitoring so you can view your business or home over the internet or even from your mobile phone.

If Security, Surveillance and Remote Monitoring are important to your business or home, then we are the right **CCTV** Installer for Your needs.

OUR SERVICES INCLUDES:

- ❖ CCTV Installations.
- ❖ Access Control Installations.
- ❖ Door Entry Installations.
- ❖ Design a system to your requirements
- ❖ Maintenance Service Contracts.
